

REMARKS

Claims 6, 8-9, 11-14, 16 and 18-35 are in the application.

Applicants have amended the specification, without prejudice or disclaimer, to place the application in better form for appeal.

Fig. 2 has been presented as a New Sheet, and reference to this drawing is made in the specification. The text has been amended to refer to the reference numbers in Fig. 2

The specification is objected to because of the occurrence of identified hyperlinks. Without prejudice or disclaimer, the specification has been amended to remove the references to Internet resources, based on their otherwise complete identification otherwise in the text. Applicants continue to believe that this requirement is not based on Statute, regulation, or sound policy, and represents a Luddite view of information technology and library science. For an organization that allegedly seeks progress of the arts and useful sciences to ignore or ban specific references to Internet resources in patent specifications, without providing any suitable alternate is unconscionable.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read "Steven M. Hoffberg", is written over a light blue horizontal line.

Steven M. Hoffberg
Reg. No. 33,511
